I must admit I was VERY SURPRISED especially with **Energy & Stamina Support**. I work 14-16 hours a day, most who know me would be shocked that my energy level is up. This is very exciting.

I tend to be a skeptic when it comes to products that promote weight loss. But I must say I have been stunned at the results I have been using the **weight management patch**. Prior to using the patches I had given up on the idea of losing my flabby stomach.

No matter how much I exercised and watched my diet I could not get rid of the flab. Since using the weight loss patches, my stomach has gotten flatter than I could ever imagined it to get at my age without a tummy tuck. My husband and I went on a cruise and ate foods we don't usually eat and I didn't gain weight.

Thanks for such a great product!

I have tried the **Sleep Support** for my husband who has had a sleeping problem for most of his life (he is 79 years old) and they have made an incredible difference - not only is he sleeping better (only waking up once or twice instead of three or four times) but his whole energetic system has shifted = he is less tense and lighter in "spirit" which is making a difference in his outlook and approach to his daily challenges. Thank you. I am anxious to share them with everyone!

The **hormone boosters** are working! What a relief. The night sweats have diminished to a trickle. The hot flashes have diminished to almost none. I can sleep quite well now. Do you know how many women are suffering from this and have no recourse but the drugs? Do you realize that you have done something that no doctor has been able to do. All of the other symptoms that come along with menopause have disappeared. I'm feeling quite well and looking splendid. The whole female population needs to know about this! My legs are feeling much better. I believe my circulation has improved. My extremities are not as cold.

I just wanted to thank you for introducing us to the Nano Frequency Boosters. My mom has been having terrible back pain (age 81) due to arthritis. She is not able to take any aspirin or ibuprofen compounds. With some degree of disbelief, I had her try the pain booster. She applied it to the pain site and started feeling some relief the first day. After 3 days she was still having some discomfort so she added the H-GH4 booster. By the end of the day, she was standing up straight, that look of constant pain was gone from here face and she was smiling again! Now she is telling all of her sisters about this wonderful therapy. Thank you!

I accidentally injured myself with a hazardous material. It developed into an open sore. I tried everything from homeopathic to the bizarre to cure myself. Unfortunately nothing was effective for almost an entire year. I was tired of not being able to find a cure. I thought it was a parasite. I placed a **parasite patch** directly on the spot. By day two, it was completely gone and has never returned. I am a firm believer in the patch.
