

# Weight Management System Booster

No other weight loss product delivers “PURE ENERGY” that your body can assimilate to lose weight naturally, until NOW!

**The Weight Management System Booster (WMS) is the safest weight loss product to use for losing weight.** It is an innovative booster attached to your body to deliver “pure energy” for your body to recognise and absorb. It delivers up to 39 energy frequencies in one booster that lasts up to three days. The booster helps balance important organs and supports the body for effective weight loss. **It costs only \$1.50 per day** to achieve weight loss of up to 2kg in the first week. Promising results could happen between 60 to 120 days. It is a complementary therapy used to assist all other therapies, medications and nutrition, in hastening effective results. **There are no side effects since no pills, injections, or chemicals are used.**

**Research** – We obtained animal and human fat tissues from plastic surgeons who extracted it with liposuction. We ran five different fat frequencies over the fat tissues. We saw the fat literally dissolve, break down and liquefy. We created strong detoxification process and included energies to stimulate the lymphatic system and move out the toxins in a natural way. Everything in it is natural and good for you.

It reduces appetite and bloating. You start getting lighter and are able to handle more physical activities. Studies indicate an increase in mental stamina and creativity. You feel good about yourself. If you really want to lose weight, you need to follow a holistic system to reduce caloric input and increase physical activities. Fresh organic juicing on vegetables and fruits with less meat and oil will be ideal. Our Norwalk Juicer can provide you with maximum juices and enzymes for even better results.
