

# Menopause (Male & Female)

## NeB - A Safer Energetic Answer To Hormonal Imbalance

We know that "mid-life crisis" affects both men and women due to hormonal changes. Some may experience menopause even in their early forties.

### Effects of menopause in WOMEN:

- hot flashes
- insomnia
- mood changes
- irritability
- osteoporosis
- joint/muscle pain
- decreased libido.

They also experience urogenital changes like itching, dryness, bleeding, watery discharge with urinary frequency, urgency and incontinence. Changes to the skin shows as it becomes less elastic and thinner, leading to potential breast atrophy.

### Effects of menopause in MEN:

- hot flashes
- mood swings
- insomnia
- depression
- loss of lean body and bone mass
- sexual drive reduced
- potential impotence

Using hormonal and other therapies may lead to the risk of cancer, heart disease, stroke and Alzheimer's disease.

**The Nano Energy Booster (NeB) is a rescue breakthrough for many health challenges and provides a safer answer to hormonal imbalance.** It is the result of twenty years of medical research on the human body's response to frequency

energy. It is a complementary therapy used to energise with all other therapies for better results. It comes in booster patch support attached to the skin, delivering healthy energy signatures on a 24-hour, 7-day basis, to activate and restore the body's natural state of balance. There are no side effects as no chemicals or pills enter the body. It costs only S\$1.50 per day and may need up to 120 days.

**Female hormone support** - Our research discovered the energetics that have to do with female hormones - estrogen and progesterone. By inducing stronger, denser energetic field, we observed the reduction in bloating, discomfort and pain. Hot flashes stop or subside with overall feeling of better health, increased libido and stronger orgasms. Women seem to get through their menstrual cycle easier.

**Male hormone support** - We researched at men who have strong and active lives. We saw very specific patterns of energy that relate to hormones. We identified frequencies of Saw Palmetto that is largely used in Europe to prevent prostate enlargement. Our goal is to help men not to have their prostate enlarged. We discovered the energy to keep the prostate gland smaller. We noticed these men have more interest in their sexual life, stronger, better erections and produce more semen.

**Weight management** could be a mid-life problem. Find out the answers in our website at [www.natures-glory.com](http://www.natures-glory.com) re "News Update" on NeB including 33 programmes for the various health challenges. **We have the answers! Why suffer any longer? Share your knowledge and wonderful experience so others can benefit from it.**

Answer the questions below and Win! Nano Energy Booster Packages (with 3 programmes) worth **\$135**

1. Nano Energy Booster costs only \$1.50 per day per programme.  
**True / False**
