HOW TO FIGHT SARS

INTRODUCTION

The secret … fight and not fear, build quick immune system naturally, not just suppression, which only weakens the body further. Face the battles and the facts firmly and strongly, and not hide or run away.

Be healthy and productive to prevent a faltering economy. Be positive and discerning. Be well prepared and equipped. Expect battles ahead with even more deadly strains to come. Protect others to protect self. Be responsible and committed. But there is hope …

Vitamin C, masks and sprays may help but do not have a balanced protection. If they were so, the problems of SARS would have been brought under control by now. Instant cures by drugs and antibiotics may appear to be effective for a while but may not work against more deadly strains to come. It takes time to discover an effective vaccine that needs to change when new viral strains are being discovered …

The right way to prepare ourselves at all times is to build a strong health foundation with good defence system to defend and attack.

For 45 years, I was down with a poor immune system being devastated by the monthly intake of drugs and antibiotics. Most of my organs failed. I lost my tonsils at 8, the first line of defence. Within 10 to 30 minutes, I would be down with another person’s cold or flu. I had to hold my painful liver almost daily. My kidneys were failing. My skin told the signs of what I went through. My son who is a microbiologist from the NUS, also followed the same monthly pattern for 19 years, losing his tonsils at 4.

When I was 30, I began to ask God why the wild animals did not have doctors and surgeons to take care, and yet they were so healthy and alive. When sick, they looked to nature for healing. After 15 years of waiting, I discovered that I should follow what the animals do. I began to take health foods from nature, and learn preventive measures by building up a good and strong immune system. I found it – the secret to overcome the odds.

For the next 15 years, I did not seek medical advice nor take any antibiotics or even a painkiller. My uninvited guests seemed to have left me. Even when I had chicken pox at 49, I said no to antibiotics and instead, used my fresh royal jelly to fight the viral attack, and within 3 days, I was on top, still working as usual but at home. I was also paralysed with every 3 monthly attacks of conjunctivitis for years, with nearly collapsed lens which could only be cured by steroids, but made me a potential cataract candidate. After spending $2,000 within 2 weeks, I again sought inspiration from above, and within 6 months, I discovered the healing through a special water that I created, even more powerful than steroids but harmless to the lens. It was nearly 2 years since and I could stop any viral attack to my eyes without fail. Some part of my hair were white at 30, but
at 60, I have amazingly 99.99% black hair! This was my experience and it may not be the same for you.

I revealed the secret to my son and since then he had kissed his past woes goodbye. My wife and I had to go through traumatic times of his sudden upsurge and uncontrollable fever, and had to take turns to watch over him.

I then decided to change my profession. For the last 12 years, we had been comforted by many who recovered from their ill health by doing what was right and building up a good immune system to fight the battles. We had been encouraged by a number of cancer patients who had escaped from the jaws of death. But a number also did not make it, even with Western help, as they went back to their old lifestyles. It is a dedication of service with much self and family sacrifices, half the time not being paid and the other being grossly under paid, to keep on the spirit of a health mission and vision. So don’t try to start until you count the cost.

When I was young, I wanted to become a doctor, a profession that is to be admired for selfless dedication to serve others. The irony was that having suffered much, I paid the price to be free, to understand and correct what was wrong with my health problems and to share the health benefits with others. 80% of these problems may have come from the nutrition and a change of our lifestyles is the natural and wisest way to restore us to good health again, and by God’s grace. Our cells keep replacing within short years and this is why we have hope for the better when we do what is right to our body.

God created many good things for us to enjoy having a balanced life. If there were only one product to answer the needs of all, God would have done so. Therefore, I am sharing with you a number of products that may help to synergise and build up your immune system to fight many battles ahead. What and how much to take will have to depend on your body and your financial means. You have to listen and discern your body, to seek independent guide if needed. The extent of benefits will depend on each individual and how discipline he is, with divine grace.

In a world of information technology and discoveries, we are sharing our experiences as an educational guide which may not be all inclusive. Health supplements will boost the immune system much faster than the health foods. There are other equally good products, herbs and ways that we have no experience. As a nation, we give our best to seek for an answer, to save our nation. With vision and counsel, we have direction, determination and discipline to achieve together.

Nobody has the full understanding of how to fight SARS at this stage. With our limited understanding, we believe that building a timely and strong immune system may be a possible chance to fight against this sudden epidemic. We need to pray for divine grace and mercy to spare and heal this land, and to do what is God fearing and right in His sight (2Chr.7:13-14).
For every “911” crisis, His promise of deliverance is assured and found in Psalms 91:1, with no fear of pestilence but His protection. We must know Him to put our trust in Him (Psalms 9:10). We do not entertain or give place to the enemy (Eph4:27) but to cast our care upon Him, for He cares for us (1Pet5:7). We fear not, for He is with us (Is41:10). He will keep us in perfect peace when our mind is in Him, because we trust Him (Is26:3-4). What time we are afraid, we put our trust in Him (Ps56:3-4).

POTENTIAL DEFENCES/POSSIBLE ANSWERS

VITAMIN C

Vitamin C is an important anti-oxidant necessary to combat SARS. The natural extract from food is more effective than the chemicals. During crisis, one should take more, 3000 to 5000mg or even more but to space out, depending on body’s condition. When diarrhoea occurs arising from excess Vitamin C, this could be a sign of the body’s maximum limit.

FACT 99 (FERMENTED ANTI-OXIDANT CELLULOSE TECHNOLOGY)

[For more information, click Health Supplements (Japan)]

This is one of the greatest discoveries in the 21st Century, with strong SOD like effects and 21.3 times more powerful than Vitamin C in the same dosage without side effects. Made from fermented brown rice plant for 10,000 hours or 400 days in Japan, FACT 99 is a very powerful extraordinary and natural super-antioxidant against free radicals, with scientific test reports. Free radicals are the main cause of over 200 diseases including abnormal growth.

FACT 99 has the potentiality of reversing what is deadly and hopeless as found in most cancer cases in Japan. It turns harmful free radicals to harmless water, freeing the body, with p-53 gene to naturally repair and heal the damaged cells, to become healthy cells over a period of time. The daily intake is about 15 capsules to as much as 40 for serious cases. Each capsule is $1 and 3 times as much in Japan. It is especially helpful for lungs, liver, breast and pancreas. We have limited experience here because of the price, but if it is a last resort, it is better than having no life.

SQUALENE (SHARK LIVER OIL)

[For more information, click Health Supplements (Japan)]

Sharks have been known to stay at 3,000 ft or more below sea level without often surfacing. This amazed the Japanese scientists who discovered that the shark liver contain high level of oxygen to oxygenate the body and build up good, strong immune system. Sharks have been known to have no cancer.

In early days, Squalene had been used to help patients with TB and diabetes. Squalene is excellent for lung problems especially asthma and build up good immune system. We have good experience. Many have reported having less sicknesses after taking Squalene.
SARS attack the lungs and Squalene may be a potential answer if taken enough, perhaps 4000 to 6000mg a day. However, not all Squalene is of the same quality. Many have the presence of the harmful PCB and DDT found in the shark liver which the Japanese have excellent way to remove them. If cough is due to throat irritation, you can cut the capsules and squeeze out the oil to leave at the throat for as long. The cough should usually stop.

CHLORELLA AND CHLORELLA GROWTH FACTOR (C.G.F)

Chlorella is a green algae and whole food, one of the most researched food because of its rich and distinguished nutrients. It is called the King of the Greens, Wonder Food, Supreme Whole Food Concentrate, Edible Cosmetic, and is the number one health food and supplement in Japan. All green foods are good such as spirulina, wheat grass, barley green and alfalfa. But chlorella is superior and distinguished for its high content of chlorophyll, growth factor and cell wall, besides over 60% of proteins, minerals, vitamins and trace minerals, and a good antioxidant.

The chlorophyll is highly researched by scientists for its cleansing power to detoxify the bowels, liver, kidneys and the blood system, bringing oxygen necessary for healthy cells and other health benefits. The 20 to 25% of CGF is rich in amino acids, peptide, vitamins, polysaccharides and nucleic acids of RNA and DNA. Highly researched as a powerful enhancer of immunity, growth and development to the young, and as a retardant of aging. It helps stimulate tissue and genetic material repair, protect and support cellular functions, improve nutrient intake, regulate production of enzymes, regain energy, protect cells against toxin and improve bowel function.

CGF stimulates T cells against viruses and cancer, B cells against bacteria, and macrophages against cancer. It quickens the healing process, stimulates interferon production, macrophages, secretion of tumour necrosis factor (TNF) and fibroblast activity. Our experience is good for cancer, especially those with blood diseases and dengue fever, to boost up the platelet count so remarkably fast. Usually to take one cup (20cc) a day, but for crisis, may go up to between 3 to 6 cups before meals.

The Cell Wall of chlorella is unique and has the remarkable ability to bind toxins and cleanse body of harmful chemicals, pesticides, dioxin, and pollutants in the blood and lymphatic. It is also an excellent source of fibre to promote bowel function and regularity, an important key to keep a clean and healthy colon system. It stimulates the immune system to produce interferon to protect our body from infections of influenza viruses and tumour activity.

SARS is a flu virus that may cause platelet reduction. Chlorella is ideal against such attacks, building up strong immune system over time, generating new cells to fight the
battle. It helps to beautify the skin, prevent aging and normalize the flow of body fluids. We have good experiences against flu, and many families and children have been helped.

Our Microbiologist is believed to be the first to research on chlorella in the National University of Singapore... Our chlorella in Ishigaki, off Okinawa, Japan is claimed to be the best in the world and the world pioneer. Nature’s Glory is honoured to be the first to introduce this excellent quality into the world outside Japan, right up to America.

PLUM BALLS AND UMEBOSHI
[For more information, click Health Supplements (Japan), Organic Foodstuff – Condiments]

The Japanese have the saying that “An Umeboshi a day will help prevent 100 illnesses. It is the blue diamond of all fruits. Japanese Ume contains more citric acid, calcium, iron and phosphorus than any other fruit and twice as much protein.

Plum Balls from Japan are rich in citric acid and other organic acids, proteins and minerals which help to maintain good health. The balls are made from the concentrate which is 30 times stronger than the umeboshi and without sea salt. The extract is combined with wild Japanese Mountain Yam, to promote vitality, retards aging, maintain slimmness, guard against blood acidity, strengthen digestive system, improve liver function, strengthen immune system and promote absorption of calcium and iron in pregnant women.

The high content of citric acid comes from only unripe plum, which breaks down lactic acid, improves metabolism and prevents cell aging. The citric acid has anti-bacterial and anti-viral properties, killing them in the blood, food and water. It is very powerful to stop serious vomiting and diarrhoea by taking 20 balls each time every 2 hours until the viral effect stops. Years ago, I had a viral attack after lunch and was fast entering into coma. I could not drive, neither sleep in bed, as if my room was moving in circles. After taking the plum balls on extensive dosage, I was able to force the viral fever effect out of the body without a trace of the fever the next day. Plum Balls may save those with stomach and gastric ulcer problems.

Plum Balls may have a good chance against the viral effects of SARS provided if taken in large dosages to prevent the rapid SARS attacks. Carry along wherever you go as viral attacks come without warning. They are usually swallowed and sometimes sucked during throat irritation.

GOLD STAKE MINERALS
[For more information, click Health Supplements (America)]

Most minerals are 5 to 10% absorption while the principal of Gold Stake Minerals believes that its absorption is over 90%, being water soluble. They are from the ancient sea bed. Minerals are catalyst to promote enzymatic and metabolic activities. All
nutrients such as vitamins, proteins, enzymes, amino acids, carbohydrates, fats, sugars, oils, etc, require minerals for proper cellular function.

Gold Stake Minerals are mostly in the oxide or hydroxide (oxygen) form and work together to bring oxygen to every cell in the body. Without adequate oxygen, cells die or can turn malignant. Gold Stake is very powerful against sore-throat and throat irritation and has been experienced in throat cancer.

SARS may attack through the mouth. If Gold Stake is left in the mouth and throat, there is a good chance to fight any invasion, even before, during and after masking. It may relieve the cough if throat irritation. Carry it along at this time if your immune system is weak.

**BIFINADUS**

*For more information, click Health Supplements (America)*

The Bifidobacterium and Bacillus bifidus complex has so many roles. Unlike other probiotics, Bifinadus is a human isolate, meaning it is not cultured through yogurt, soy or other bacteria species. Human bifidobacterium possess the strongest activity. Human isolates colonise in the gut. Found in infants, this healthy bacteria starts to decline in humans at early ages, some say around puberty.

Bifidobacterium is shown to inhibit cancer and suppress small intestine tumours, enhance calcium and other mineral absorption and increase bone density as a result of effective intra-intestinal environment improvement. Bifinadus has immunopotentiating effects, improving immune system functions that weaken with age. It has anti-microbial properties and can increase enzyme synthesis. It unlocks the door to free flowing flora and ease in stomach strain. Known to fight harmful bacteria, improve intestinal flora, prevent diarrhoea and constipations, and improve appetite and digestion.

Bifinadus is also cultured with Bacillus in Natto. Natto is an immune stimulator with anti-tumour properties and natural killer activities. It enhances nutrient assimilation and has the highest fibrinolytic activity among 200 foods, converting plasminogen to plasmin (anti-blood clotting properties). Natto has vitamin K2 and isophrabon which help to prevent diseases such as osteoporosis and breast cancer.

We need friendly bacteria that is stable to fight against unfriendly bacteria to boost up the immune system.

**RADIREDWATER**

*For more information, click Water Filtration - Water System*

Lack of water has been traced to cause many diseases and sicknesses and allowing free radicals from undischarged waste to create havoc and reduce immune system. 65% of our body’s weight is water and adequate hydration with the right water will promote
healthier and cleaner cells. Even breast tumours have been traced to lack of drinking water.

Professor Hanaoka from Japan, one of the leading pioneer members in functional water, advocated that electrolysis alkaline and ionic water helps to increase the anti-oxidant activities of food and health supplements within our body. In tests jointly conducted with the University of Texas, USA, it was discovered that this unique alkaline water helps prevent damage of cells from free radicals.

RadiRedWater System is 100% made in Japan by the pioneer in the industry and 100% dedicated to the water technology unlike many other companies. It is among the best, and the technology endorsed by the Japanese health authorities for medical health purposes, to assist in chronic diarrhoea, gastro-intestinal fermentation, hyper acidity, poor digestion and astringency in acidic water.

Diseases including cancer, and lifestyle dependent on meats, oils, sugars, and stress, all lead to acidic condition conducive to health attacks and immune reduction. The high alkalinity of RadiRedWater neutralizes the acidic effects and therefore reduces the bacterial and viral activities within the body. It neutralizes the harmful effects of pesticides from vegetables and fruits.

RadiRedWater also produces low pH acidic water to disinfect the utensils, floor and even human body and for beauty, with no harmful effects to humans. This is ideal for a SARS environment. In commercial applications, the foul smell of pigs and cows in the farms could be neutralized by this low pH acidic water without the use of harsh chemicals. We have commercial applications for the agricultural, animal and food industry, including hospitals and clinics without the danger of being intoxicated by the harmful chemicals arising from accidents. Tests in Japan and Europe have confirmed the anti-viral and anti-bacterial effects of large colonies within seconds or minutes.

When your health fails, you must first look for the right water. Food will come next.

CHARMGE DEVICE
[For more information, click Beauty Products - Charme]

This is not an ordinary spray. It is the first of its kind in the world, patented together with special base solution formula with anti-bacterial and anti-viral effects for the treatment of skin problems. Tests had been conducted using this low pH acidic water from sea salt extract, to kill large quantities of bacteria within a matter of 5 seconds. For example, 18 million Pseudomonas Aeruginosa were destroyed in 5 seconds, and so were the E-Coli, MRSA, Salmonella, etc.

Charme has been used and tested by Akashi Hospital in Japan over several thousands of cases and is very effective in anti-bacterial/anti-viral skin related problems such as acne, eczema, psoriasis bed sores, diaper rash, etc. Many tests had also been conducted to have equal effects against viruses using low pH acidic water.
The discovery of Charme on SARS is incidental as we believe that it could have the same viral effect on SARS. The use of masks is helpful, but the virus could be trapped on the surface of hair, face, eyes, hands, and on surface areas. Using Charme before masking and before and after taking out, could be a good protection to prevent the virus surrounding the mask from sucking through the nose or mouth. Spraying on the face, nose, mouth, hair and hands could have a double protection.

Charme is believed to be the most potent anti-bacterial and anti-viral device, very effective against these organisms and yet harmless to humans. It has unique features of the ultra-sonic spray, beating the gold plate at 130,000 times per second with energy to cause the water spray, fluid control of 2,200 water jets within a very small gold plate without crossing each other, and performing electrolysis without membranes, with less than 40 micron super jet spray to penetrate through the epidermis to the dermis for effective healing and recovery.

Mikuni Corporation Japan, is a public listed company with over US$1.5 billion sales a year worldwide. It is number one in the world for carburetor and fluid control, and is also the number one in Japan for safety devices on burner equipment. Charme and Revenir are 2 devices which are revolutionizing the world market for skin treatment and rejuvenation respectively. Launched last year, Japan and America are the 2 countries enjoying the benefits of the discoveries with great interest and overwhelming success. Singapore is becoming the third country in the world to benefit the latest skin care and beauty technology.

ALOE VERA

Aloe Vera has been known since the biblical times and to have over 200 nutrients including polysaccharides, vitamins, minerals, enzymes, amino acids and glycoproteins. It heals damaged tissues, modulates immune system, restores gastro-intestinal functions, lowers risk of heart diseases, and moisturizes and rejuvenates skin. It is a powerful cleanser, building up immune system and also known to reduce pain and inflammation. We have good experience that aloe vera with plum balls if taken in good quantities, can help to terminate the fever, especially from the abdomen. It promotes bowel movements and get rid of constipation which can be a source of bacterial attack and immune reduction.

Most aloe vera has been diluted with water or even mixed with other flavours. The best and effective way to take aloe vera is to enjoy the non-diluted ones or even with the aloe vera concentrate, which reduces the water content from the aloe vera juice.
**FRESH ROYAL JELLY/PROPOLIS**

*For more information, click Health Supplements (China)*

Royal Jelly is made by the bees out of their head glands. It is the exclusive food for the queen bee that lives 40 times or longer than the normal bees. Normal bees can only enjoy up to 3 days and their main diet is in honey and pollens. Royal Jelly possesses 22 basic elements in one food in harmony with the body, complete with excellent source of proteins, amino acids, fatty acids, carbohydrates, vitamins A to E (9 vitamin Bs), minerals, trace minerals, enzymes and hormones.

The most important nutrient in Royal Jelly is hydroxy-decanoic acid or 10-HAD, a fatty acid capable of fighting various bacteria, helps suppress cancer/tumour growth and improves blood vessels. Royal Jelly is an appetite stimulator, a metabolic accelerator, an efficient digestive agent, an immuniser against diseases and infections, an anti-depressant, a blood pressure regulator, an energy booster, a sexual function moderator, a promoter of health and beauty for skin, hair and cells, a hormonal balancer, an antibiotic healer, and a rejuvenator to slow down aging and prolong life.

Royal Jelly may cause allergic reactions to asthmatic patients and is therefore not recommended for them.

Propolis is a preventive medicine from the bees and rich in flavone, enzymes, trace elements, organic amino acids, polysaccharides and vitamins. It is a natural antibiotic, antiseptic, antibacterial, antioxidation and rejuvenating agent. Propolis is good to increase body’s immunity to cold, flu, cough, tonsillitis and cystitis. It is not for those who are allergic to bee products.

**REISHI & AGARICUS BALLS (WITH GINSENG FRUIT)**

*For more information, click Health Supplements (Japan)*

Reishi (Linzir) from Japan, has the properties of double stranded RNA and organic germanium to promote interferon, improving the immune system with anti-tumour activities. It helps in viral infection, candidasis, food allergies, chronic headaches, mood disorders, sexual vitality, lowering/stabilizing blood cholesterol, stomach ulcers, bronchitis, high blood pressure, liver flu, cold viruses, nausea, lethargy.

Agaricus is a relatively rarer South American mushroom with 20% stronger anti-tumour properties compared with Reishi.

Ginseng is well known for its many health benefits including promoting mental alertness and vitality.
Formulated by 4 cancer doctors in Japan, these 3 ingredients work together with greater effect compared to single ingredient alone.

**ODOURLESS GARLIC BALLS**
* [For more information, click Health Supplements (Japan)]

Garlic is nature’s super detoxifier. It contains sulphur and allicin substances which have antibacterial, anti-inflammatory effects, neutralizing poison from food, blood and water in our bodies.

Garlic balls are odourless using koji, to retain vitamin and nutritional values unlike raw or cooked garlic.

**MUNG BEAN ORGANIC**
* [For more information, click Organic Foodstuff – Beans]

The green bean is a member of the kidney bean family and has been an integral part of the Chinese cuisine for centuries. The Chinese believe it to be good for the heart, circulatory system, liver, gall bladder and reducing swelling due to its diuretic nature. Our Mung Beans are certified free of pesticides, chemicals and additives.

**LOTUS ROOT, DRIED & SLICED**
* [For more information, click Organic Foodstuff – Foodstuff]

The main components of the lotus are nelumbine, asparagines and starch. It is excellent against colds, asthma, kidney troubles and lungs.

**WASABI POWDER**
* [For more information, click Organic Foodstuff – Seasonings (Dressings, Pastes, Salt)]

Wasabi is a perennial plant that grows wild in the mountains with deep spring water flows. Traditionally used as a seasoning for its aroma in China and Japan. In Japan, wasabi and shoyu are often used as mustard to dip sushi and sashimi in.

Wasabi works as a germicide.

**FERMENTED MISOS**
* [For more information, click Organic Foodstuff – Misos]

Our misos are mostly organically certified, fermented between 18 to 16 months, with healthy enzymes and bacteria, good for their rice, soyabean or barley nutrients. They promote enzymes for digestion, and healthy bacteria growth to prevent constipation.
GENMAI KOJI (BROWN RICE KOJI)
[For more information, click Organic Foodstuff – Foodstuff]

Genmai Koji is rice grain inoculated with friendly bacteria during the fermentation process. Out of the fermentation process comes a wealth of enzymes that assist directly on the digestion of food and to stimulate the secretion of digestive fluids in the stomach. It also helps in the bowel movement to prevent constipation and toxic accumulation in the body which can otherwise lead to harmful diseases.

SAUKERKRAUT ORGANIC
[For more information, click Organic Foodstuff – Condiments]

Made from organically grown cabbages, they are fermented in cypress vats for 6 weeks, and heated for 5 minutes before packing. It is a good source of fibre, rich in antioxidant vitamin C and has low calorie, good for bowel movements to prevent constipation.

KUKICHA TWIG TEA ORGANIC
[For more information, click Organic Foodstuff – Beverages & Drinks]

Kukicha is made from the twigs of the green tea plant. The twigs are roasted 4 times. It has the ability to neutralize both acids and alkaline and contains tannin, effectively working as a germicides and detoxifier. Kukicha contains almost no caffeine, making it suitable even for children and babies.

ORGANIC FOODS, FREE OF HARMFUL CHEMICALS

There are 3 kinds of foods. One is the commercial, with the pesticides and preservatives problems. The second is the natural, with the pesticide problem but not the preservatives. The third is the organic and being certified, without any harmful pesticides or preservatives.

It is best to take organic foods, although the price may be two times higher than commercial foods. However, the commercial and natural foods may have harmful chemical effects which can cause long term diseases and even cancer. These will cause more for the medical expenses including the loss of limbs and organs which cannot be valued.

OTHER IMMUNITY MEASURES

Adequate rest, eat right, wash hands before eating, moderate exercise, plenty of fresh air and sunshine, good daily bowel hygiene, positive spirit with good understanding support, keep away from crowded and infested areas, cover up when cough or sneeze (put on mask if persistent), apply medicated oil immediately before or upon sneezing, conscious to do what is right and protect others to protect self.
Keep away from food that causes allergic. Cut down on meats, oils, sugars, fried foods and low pH commercial drinks, which have the potentiality to reduce the immune system. Drink plenty of good and healthy water, to really hydrate the body and drain out the waste for body defence. Take warm bath followed by warm drinking water, to fight cold attacks when weak or in bad weather. Plan to control the effects of stress and with chlorella, apply acupressure points to boost defence and fluid flow.

We have an electro-magnetic device which is used by professional in other countries to potentially knock off viral and bacterial attacks, increase immune system and improve blood circulation. We have no experience with SARS but would like to work with the medical profession to benefit others.

TOGETHER WE ACHIEVE

We went through many challenges before and we achieved together – separation with Malaysia, the entreport trade to industrialisation crisis, the Indonesian Confrontation, the Vietnam crisis, the oil crisis, the Asian crisis, September 11 crisis and the terrorists, and so on. We stood together and beat the odds. We must stand together in this SARS crisis to prevent the faltering of the economy affecting businesses, jobs and our families. Collectively we do our part to end this crisis with God’s grace and deliverance.

2 weeks ago, I was on board a plane from Ishigaki, Okinawa to Osaka. A young lady was coughing and lying on the seats with a blanket. Immediately I sacrificed an expensive mask for her to put on. The stewardess asked her to put on and she refused. She even told us she had one her own. My customer and I sprayed the Charme from the hair, face, nose and to the mouth, and put Gold Stake Minerals into our mouth before putting on the mask. Later, other Japanese objected, and the lady had to vacate to a sick bay and forced to put on a mask, and to the relief of all. We must be conscious to think of others, to be able to protect self to contain this epidemic.

Visit our website to discover more details about our products. Pass on the benefits to others including your family.

Nature’s Glory, the name you trust for long-term health and beauty. Dedicated to the health of nations.
